

# TSAX1730

IP68 ATEX explosion-proof camera housing

TSAX1730 is a robust and utilitarian model applicable to specific anti-explosive projects. Certificated with IP68 and ATEX Ex d IIC T6 Gb explosion-proof marking, TSAX1730 becomes a highly recognizable product in this product range. Two available materials, SS304 and SS316L, make TSAX1730 ideal for all the explosive environments. In addition to the standard enclosure, TSAX1730 is flexible with additional components such as sunshield, and wiper. The most noticeable one is the inbuilt 60 W HiPoE, which simplifies the complicated installation.

Furthermore, with the assistance of LonTrend standard accessories, including bracket, external IR illuminator, and pan tilt unit, the feature of TSAX1730 is sure to surpass your expectations.
